

General Ledger – Misc

Download Budget Template/GL Budget Upload/Update Edit Report

These two options enable you to download a pre populated Excel spreadsheet for budgets and an edit with an update option for uploading new budgets to the file GLMAST.

The path from the drop down menu: GL > Misc > Download Budget Template

There is no input for the download option. Selecting it from the drop down list will open a budget template spread sheet.

The path from the drop down menu: GL > Misc > Upload/Update Budgets

Download Budget Template

1. You will need to run the download template step first, clicking on the drop down menu path option will automatically download an open spreadsheet with the accounts pre loaded from the current year actual record. (Figure 1)
2. Format the following columns by clicking on the column letter (ie...A, B, C...) to highlight the entire column, right click within any cell of that column, select **Format/Cells**.

Column Formatting

- A - (Company #)** - Numeric, 0 decimal places
- B - (Department #)** –Numeric, 0 decimal places
- C - (Account #)** Numeric, 0 decimal places
- D - (Account Description)** Text, 25 char
- E - (Credit/Debit)** Text, 1 char
- F-Q - (12 monthly Budget columns)** Numeric, 2 decimal places

3. Enter your data.
4. Click File/Save As.
5. Select a location of your choice to save your file by clicking on the [Save in](#) box. (Figure 2)

Printing Report:

Click on the print icon  to print this report as it appears on screen.

Export Report Data:

Exporting data to Excel will allow you to sort, filter and change data. There are two export options located in the top right corner of each report.

Option 1

Excel 1 Icon  is a formatted Excel sheet that looks very similar to the report displayed on the screen. All totaling formulas are written within the spreadsheet so any changes made to the data will be reflected in the totals

Option 2

Excel 2 Icon  is an unformatted Excel sheet that has the same raw data as that of Excel 1, but without subtotals and headers.
