

Inventory – Reports - Transaction

Extended Item Cost

This report prints a comparison for the selected items of current quantity on hand and cost compared to the physical count and cost at the beginning of the fiscal year.

The path from the drop down menu: IV > Reports - Transaction > Extended Item Cost

This application contains multiple selection screens accessible by clicking on the selection icon  [Click here to learn more about selection screens](#)

Input to Run Report: (Figure 1)

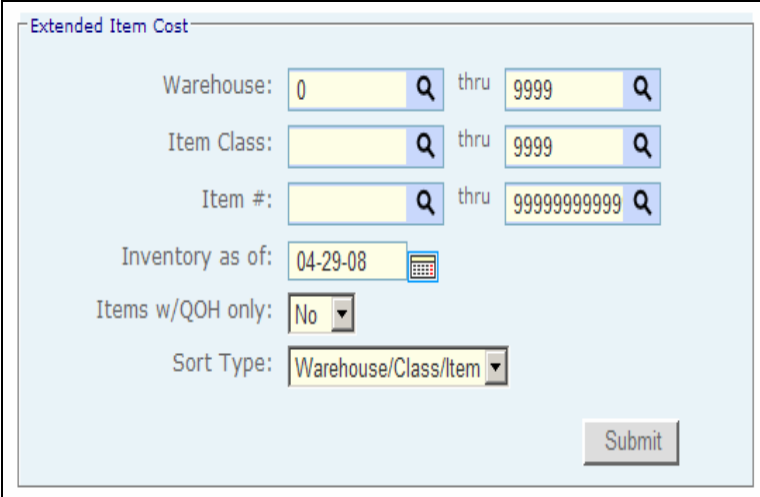

1. Enter *Warehouse* thru *Warehouse*

-OR-

You may click on the selection icon  for a list of available warehouses.

If you want to select only one warehouse, item class and/or item #, enter the same data in the starting and ending entry fields.

Figure 1 – Extended Item Cost

Extended Item Cost

-OR-

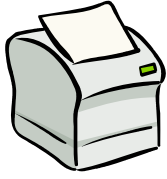

You may click on the selection icon  for a list of available item classes.

3. Enter *Item #* thru *Item #*

-OR-

You may click on the selection icon  for a list of available item numbers.

Printing Report:

Click on the print icon  to print this report as it appears on screen.

Export Report Data:

Exporting data to Excel will allow you to sort, filter and change data. There are two export options located in the top right corner of each report.

Option 1

Excel 1 Icon  is a formatted Excel sheet that looks very similar to the report displayed on the screen. All totaling formulas are written within the spreadsheet so any changes made to the data will be reflected in the totals

Option 2

Excel 2 Icon  is an unformatted Excel sheet that has the same raw data as that of Excel 1, but without subtotals and headers.
